

# Set Options for People Who Have Difficulty Using the Keyboard or Mouse

If you have difficulty using the keyboard or mouse, you can quickly set options using the Accessibility Wizard. Mobility options include turning on StickyKeys, MouseKeys and FilterKeys, getting extra keyboard help in programs, selecting cursor size and color options, mouse button configuration, and mouse pointer speed.

	Mouse actions	Keyboard actions
1	On the <b>Start</b> menu: <ul style="list-style-type: none"> <li>Point to <b>All Programs</b>.</li> <li>Point to <b>Accessories</b>.</li> <li>Point to <b>Accessibility</b>.</li> <li>Select <b>Accessibility Wizard</b>.</li> </ul>	Display the <b>Start</b> menu by pressing CTRL+ESC (or the Windows logo key  ). <ul style="list-style-type: none"> <li>Press R.</li> <li>Type <b>accwiz</b></li> <li>Press ENTER.</li> </ul>
2	In the <b>Welcome to the Accessibility Wizard</b> dialog box: <ul style="list-style-type: none"> <li>Select <b>Next</b>.</li> </ul>	In the <b>Welcome to the Accessibility Wizard</b> dialog box: <ul style="list-style-type: none"> <li>Press N.</li> </ul>
3	In the <b>Text Size</b> dialog box: <ul style="list-style-type: none"> <li>Select the smallest text you can read.</li> <li>Select <b>Next</b>.</li> </ul>	In the <b>Text Size</b> dialog box: <ul style="list-style-type: none"> <li>Select the smallest text you can read by pressing the UP ARROW or DOWN ARROW key.</li> <li>Press N.</li> </ul>
4	In the <b>Display Settings</b> dialog box: <ul style="list-style-type: none"> <li>Select the options you want.</li> <li>Select <b>Next</b>.</li> </ul>	In the <b>Display Settings</b> dialog box: <ul style="list-style-type: none"> <li>Select the options you want.</li> <li>Select <b>Next</b>.</li> </ul>
5	In the <b>Set Wizard Options</b> dialog box: <ul style="list-style-type: none"> <li>Select the <b>I have difficulty using the keyboard or mouse</b> check box.</li> <li>Select <b>Next</b> to continue through the wizard.</li> </ul>	In the <b>Set Wizard Options</b> dialog box: <ul style="list-style-type: none"> <li>Select the <b>I have difficulty using the keyboard or mouse</b> check box by pressing K.</li> <li>Press N to continue through the wizard (use the arrow keys and ENTER to select the appropriate options).</li> </ul>
6	In the <b>Completing the Accessibility Wizard</b> dialog box: <ul style="list-style-type: none"> <li>Select <b>Finish</b> to save your changes and exit the wizard.</li> </ul> <p><b>Note:</b> To <b>cancel</b> your changes, select Cancel, and then select <b>No</b>.</p> <ul style="list-style-type: none"> <li>To move back to change earlier screens, select the <b>Back</b> button.</li> </ul>	In the <b>Completing the Accessibility Wizard</b> dialog box: <ul style="list-style-type: none"> <li>Press ENTER to save your changes and exit the wizard.</li> </ul> <p><b>Note:</b> To cancel your changes, use the TAB key to move to the <b>Cancel</b> button, and then press ENTER. Press TAB to select <b>No</b>, and then press ENTER.</p> <ul style="list-style-type: none"> <li>To move back to change earlier screens, press B.</li> </ul>
